PROFILE

UI/UX and Product Designer across AI, BFSI, fashion-tech, insurance, mental health and sports-tech. I turn complex problems into clear, accessible experiences, from research and information architecture to production-ready prototypes. Currently designing for a multilingual AI platform under AICTE, using AI tools like Uizard, Stitch and Page Flows to move faster. Comfortable presenting to stakeholders and pairing with engineers so designs ship as intended.

EXPERIENCE

UI/UX Designer | Anuvadini AI, AICTE (All India Council for Technical Education) | Sep 2026 to Present
- Design interfaces for AICTE's multilingual AI platform, Anuvadini AI, with accessibility-first, multi-script screens.
- Turn AI behaviour (loading, low-confidence results, errors) into clear interface states.
- Use Uizard, Google Stitch and Page Flows to speed up wireframes and flow research.

Product Designer | The F* Word | Dec 2025 to Aug 2026 | Remote
- Owned end-to-end product design for a web-based AI fashion platform, from research and flows to developer handoff.
- Ran stakeholder workshops and delivered annotated Figma prototypes that cut engineering back-and-forth.

UI/UX Designer | BusinessNext | May 2025 to Oct 2025 | Delhi, India (BFSI)
- Contributed to an enterprise design system: reusable components, token-based colour and spacing, pattern documentation.
- Led the CustomerNext web redesign, simplifying navigation and high-frequency workflows through usability audits.
- Ran heuristic evaluations and formalised handoffs with annotated specs and a shared Figma library.

Visual Designer | Matrikas | Sep 2021 to Nov 2021 | Delhi, India
Developed brand-aligned product design concepts, refined through team and market feedback.

DESIGN PROJECTS

The F* Word AI | AI Fashion Product Development Platform | thefword.ai
- Designed the web experience for a platform that takes fashion designers from sketch to production-ready tech packs, covering technical flats, BOM, measurements and construction notes.
- Structured guided workflows so designers keep creative control while AI handles repetitive steps, turning a manual process into a repeatable digital one.

Hyped Messenger | AICTE Messaging App (Live)
- Product designer on a homegrown alternative to WhatsApp, now live.
- Owned user flows and managed design timelines alongside development.

Topper Website | AICTE Ed-Tech Learning Platform
- Designing a web platform for live tuitions and study material, from school level to exams like SSC CGL, then extending it to mobile.
- Shaping one stage for all learners, so every level and exam goal is served in one place.

YatraSure | Motor Insurance Mobile App
- Ran interviews and benchmarking to find friction in insurance purchase and renewal journeys.
- Designed guided mobile flows with progressive disclosure, improving policy comprehension in usability tests.

Haven | Mental Health Support App
- Ran interviews and empathy mapping across age groups to shape a calm, trust-building visual language.
- Validated through usability testing and met WCAG 2.1 AA accessibility standards.

PlayZone | Sports Accessibility Platform
- Interviewed differently-abled participants to understand barriers to discovering and booking sports facilities.
- Built personas and journey maps, and led ideation workshops to shape an inclusive feature set.

SKILLS

Design and research tools: Figma, FigJam, Adobe Illustrator, Maze

AI design tools: Google Stitch, Uizard, Page Flows, Figma Make, Framer AI, Midjourney, ChatGPT, Claude

UX and systems: User research, usability testing, heuristic evaluation, information architecture, wireframing, prototyping, journey mapping, design systems, dev handoff

Languages: English (fluent), Hindi (fluent), Malayalam (conversational, speaking only)

CERTIFICATIONS

Material Design (Google) | The AI-Driven Product Designer | Customer Journey Mapping with Generative AI | Enterprise Design Thinking Practitioner

EDUCATION

Master of Design, UI/UX | Vivekananda Global University, Jaipur | Aug 2023 to May 2025

Bachelor of Commerce (Hons.) | Institute of Innovation and Technology Management, Delhi | Jun 2020 to Jul 2023
